European Games Rules on Advertising, Demonstrations and Propaganda

The following Rules for the European Games are based on Rule 50 of the Olympic Charter.

1 The European Olympic Committees (EOC) determine the principles and conditions under which any form of advertising or other publicity may be authorised.

2 No form of advertising or other publicity shall be allowed in and above the stadia, venues and other competition areas which are considered as part of the European Games sites other than that relating to the

contractual rights of the marketing partners of the Baku 2015 European Games.

3 No kind of demonstration of political, religious or racial propaganda is permitted in any of the European Games sites, venues or other areas.

4 These rules and any other manuals, guides, guidelines or any other instructions issued by the EOC Executive Committee apply to all persons holding accreditation for the Games and are a pre-condition to the ongoing validity of that accreditation.

Manufacturer's Identification on Equipment and Clothing

Definition: Manufacturer's Identification means the normal display of the name, designation, trademark or logo. The Manufacturer's Identification can only appear once on each piece. **The standard graphic elements recognised by the WFSGI, e.g. adidas' three stripes may also be used within reason and subject to prior written agreement. Other identifications such as 'Goretex' and 'Dryfit' may also be used within reason subject to prior written agreement. The size of these may not be larger than the Manufacturer's Identification.**

All approvals must be requested via brand.approvals@baku2015.com.

1 Other than the Manufacturer's Identification, produced according to the size guidelines shown below, and the standard graphic elements no form of publicity or propaganda, commercial or otherwise, may appear on persons or on any article of clothing or equipment worn or used by the athletes or other participants in the Baku 2015 European Games. It also includes, but is not limited to, for example, any form of body art, jewellery or contact lenses.

1.1 Equipment: any Manufacturer's Identification used cannot take up more than 10% of the surface area of the equipment visible during competition up to a maximum size of 60cm². **Exceptions may apply, subject to prior written agreement (brand.approvals@baku2015.com).**

1.2 Headgear and gloves: the maximum size of the Manufacturer's Identification allowed on any form of headgear and on gloves is 6cm². Headgear includes, but is not limited to, hats, helmets, sunglasses and goggles.

Exception for Swimming competition

- Games rules state manufacturers logo must not exceed 6cm²
- LEN rules state that for a swimming cap, 20 cm² is the maximum.

1.3 Clothing (e.g. **NOC uniforms**, competition clothing, tracksuits, T-shirts, shorts, sweat tops and sweat pants): the maximum size allowed for any Manufacturer's Identification on clothing is 20cm². There is one exception:

Where a one piece body suit is worn in competition, two Manufacturer's Identifications may be included – one above the waist and one below. These Identifications must not be placed next to each other.

Exception for Swimming competition

- Games rules for clothing state manufacturers logo must not exceed 20 cm²
- LEN rules state 30 cm²

1.4 Shoes: the normal distinctive design pattern of the manufacturer may appear on shoes. The manufacturer's name and/or logo may also appear, up to a maximum size of 6cm², either as part of the normal distinctive design pattern or separate to it.

1.5 Technical gear: the maximum size of the Manufacturer's Identification on all technical gear, installations and other apparatus, which are neither worn nor used by athletes or other participants (for example, timing equipment and scoreboards), may be no larger than 1/10th of the height of the piece in question up to a maximum of 10cm high.

1.6 In case of special rules adopted by an International Sports Federation, exceptions to the rules mentioned above may be approved by the EOC Executive Committee.

Any violation of these rules may result in disqualification or withdrawal of the accreditation of the person concerned. The decisions of the EOC Executive Committee regarding this matter shall be final.

NOC Uniforms

The official uniforms of the NOCs may include:

- symbols of the country (name of the country, national flag, emblem, etc.)
- emblem of the NOC
- logo of the Baku 2015 European Games
- emblem of the respective National Sport Federations (on competition kit only where permitted by the NOC)

The NOCs are requested to bring a sample of the competition uniform to the first Technical meeting of each sport for final check in order to avoid any problems on the field of play.

NOCs should seek prior written approval from BEGOC for their uniforms before production begins. Pictures featuring the branding should be sent to ([brand.approvalst](#)) for review and official approval.

Athlete Conduct

During the European Games athletes' ongoing accreditation is conditional upon them not:

- Taking any sport equipment and/or national flag onto the podium during a Medal Ceremony;
- Making any kind of demonstration or promote political, religious or racial propaganda in any European Games venue or associated areas during the period of the Games.

Late Athlete Replacement Policy

The deadline for sport entries of participating athletes in the Baku 2015 European Games is 1 May 2015.

However, where urgent medical problems arise, or in other exceptional circumstances that are assessed on a case-by-case basis, the European Olympic Committee (EOC) may permit the permanent replacement of one athlete by another only in the same sport, discipline and event. During the European Games, it is the policy of the EOC that P accreditations are not available.

Replacement of an athlete can only occur after consultation with the

relevant European Federation (EF) and, when deemed necessary by the EOC, an EOC medical expert.

The replacement of athletes due to medical reasons after 1 May 2015 and up to 2 hours prior to the Sport Technical Meeting.

1. The replacement athlete is entitled, and qualified, to take part in the European Games as stipulated in the Qualification systems, published in 2014 and regularly updated by the EOC and Baku European Games Operation Committee (BEGOC).
2. No doping control issues are pending concerning the replacement athlete.
3. The National Olympic Committee (NOC) of the replacement athlete had applied for accreditation for the athlete prior to the application for accreditation deadline on 12 March 2015.

submission procedure has been correctly completed the application for Late Athlete Replacement shall be approved by:

- Designated representative of the EOC.

The following additional procedures must also be carried out in order for one athlete to be replaced by another:

- a) The relevant NOC must fill out an Official Athlete Replacement Form for the athlete being replaced and the replacement athlete.
- b) The relevant NOC must add the new athlete's details to the Eligibility Conditions Form which they already hold and, when required, the Sport Entry Form for the replacement athlete.
- c) The accreditation card of the replaced athlete must be withdrawn.

Following the athlete replacement, the accreditation card of the replaced athlete shall be cancelled. Procedures relating to the replaced accreditation card will be released in due course.

Once a replacement athlete has been approved, that individual athlete cannot be replaced for non-medical reasons.

All documentation and queries regarding this matter should be sent by email or submitted in person to the BEGOC Sport Entries department, at:

Athletes Village – Sport Entries and Sport Information Centre

Email: entries@baku2015.com

Doping control

BEGOC is committed to delivering a world-class doping control programme during the Baku 2015 European Games. Under the authority and direction of the EOC, the BEGOC doping control programme will ensure the integrity of sport is upheld and protect the rights and health of the athletes.

The EOC Medical & Anti-Doping Commission is responsible for determining in advance the distribution and number of doping controls to be carried out throughout the Games period, from 8 June to 28 June 2015, and during this period athletes from all sports will be eligible for urine and blood testing. The EOC has the authority to test athletes for substances and doping methods prohibited by the World Anti-Doping Agency (WADA) anytime and anywhere during in-competition and pre-competition. All sample analysis will be performed in a WADA-accredited laboratory established for the Games.

The selection of the athletes may be targeted at random or based on the athlete's final position in competition. BEGOC has appointed PWC Global Service GmbH & Co. KG as the delivery partner for the doping control programme. As delivery partner, it will be responsible for sample collection, analysis and secure chain of custody.

Full details on the doping control programme and procedures at the European Games are available in the Baku 2015 Medical, Anti-doping and Pharmacy Guide, which can be downloaded from the e-Qəzet. Printed copies of the guide will be distributed at the EOC Medical Commission meeting on 11 June. If medical staff arrive later than 11 June, copies of the guide can be collected at the Polyclinic.

All athletes who remain until the end of the ceremony will be accompanied by non-marching athletes and team officials during their return to the Athletes Village.

Closing Ceremony

The Closing Ceremony will be held at the Olympic Stadium on Sunday 28 June 2015. The ceremony will be broadcast live from 21:00. Athletes, team officials, Chefs de Mission and Deputy Chefs de Mission will be allowed to march in the Athletes Parade for the Closing Ceremony. All participants will walk from the Athletes Village to the Olympic Stadium on the same route as for the Opening Ceremony.

Marching athletes and officials

Under no circumstances may participants in the Opening or Closing Ceremonies display any form of publicity or propaganda – commercial, political or otherwise – on any item worn, or in any other manner that is visible on camera. Participants may not use selfie sticks during the parade.

Ticketing

Complimentary sport tickets for athletes and officials

All participating athletes and team officials with an accreditation in the following categories (Aa, Ao, Ac) will be able to obtain two complimentary tickets per each same-sport session per day. Tickets can be used by athletes and team officials or distributed to their friends and family. However, it should be noted that each competition venue has its own dedicated athlete seating area; as a result, if athletes and team officials choose to sit with their friends and family, they will have to make use of the complimentary sport tickets as their accreditation will not allow them to sit in the spectator seating areas.

Different-sport athletes and team officials will also be able to obtain two complimentary tickets per day for one different-sport session held that day.

Complimentary tickets will always be the best available seats. Athletes and team officials will be able to request them at the City Ticket Outlets, the Athletes Village or Venue Ticket Box Offices by displaying accreditation.

Please note: there is no team seating on the field of play.

Video Recording

NOCs wishing to film sport in competition venues will be required to adhere to the following procedures:

- NOCs must register their camera at the Sport Information Centre in advance of when they wish to film, and will be required to sign a camera usage waiver.
- NOCs will be provided with a supplementary access device. Cameras will not be allowed inside the competition venue without a supplementary access device.
- NOCs may only film from the designated filming area in each venue. For Swimming, there will be tabled positions with access to power and direct internet access at Baku Aquatics Centre.
- Recordings can only be used for analysis, and must not be broadcast onto any medium

NOC Filming Position

NOC filming positions have already been allocated to NOC's on a first come first served basis via a booking system. Teams should report to the SID at the Aquatics Centre to collect the supplementary NOC passes that will allow access to the NOC filming positions in the seating bowl.

Post-Competition

Leaving the pool

Athletes should leave at the sides of the pool by moving underneath each lane rope and not rolling over the lane ropes, or climb over the end of the pool where the Tissot touch pads are placed. Athletes must then collect their accreditation from the doping control table on the field of play before proceeding through the Broadcast Mixed Zone. Athletes may collect their kit from the collection area.

For finals, athletes finishing in the top three will be informed by a medal chaperone of the time they are required to attend the Medal Ceremony, and will be escorted through the Broadcast Mixed Zone and to the Medal Ceremony staging area.

Doping control

Athletes selected for doping control will be notified in person and escorted to the Doping Control Station by a doping control chaperone as soon as practically possible after they have finished competing. It is the responsibility of the athlete to remain under continuous observation of the doping control chaperone after notification. As Aquatics athletes are under the age of 18 a member of team staff (aged 18 or over) will be required to accompany athletes to the Doping Control Station. For details of the doping control programme at Baku 2015, see p29.

Broadcast Mixed Zone and I-Zone

All competition venues will include a Broadcast Mixed Zone for broadcast media, and an I-Zone for written press. Following competition or a Medal Ceremony, all athletes must pass through the Broadcast Mixed Zone as they leave the field of play, but are not obliged to speak.

After passing through the Broadcast Mixed Zone, athletes will be free to return to the changing room or go to Medical/Doping unless they are requested for the I-Zone for interviews.

Press wanting to interview someone in the I-Zone would make a request to Press Operations who will escort the athlete from the Broadcast Mixed Zone to the I-Zone.

By default, all gold medallists and all Azerbaijani athletes will be brought to the I-Zone for interviews. Press Attaches, Doping Control Officers and Language Services Team Members will be able to escort

athletes into the I-Zone as needed. The I-Zone will end operations about 45 minutes after competition ends.

Results distribution

Competition-related information for all sports, including results reports, will be available on the Games Time Website (baku2015.com). All results information will also be accessible from the Baku 2015 Mobile Application (Android, iOS), which will be available for download in early June.

In an attempt to reduce the total paper consumption during the Baku 2015 European Games, there will be no distribution of printed results to NOC's. This information will be available instantly on the Baku2015 Games-time Website and central copies will be displayed in key locations within the competition venue and within the Sport Information Centre at the Athletes Village.

After the completion of all competition, all results outputs will be compiled in PDF format and made available for download from the Games Time Website (baku2015.com).

Medal Ceremonies

All Medal Ceremonies at the Baku 2015 European Games will occur on or around the field of play. Athlete chaperones will be on hand to advise and guide all athletes before, during and after their Medal Ceremony. Announcements will be made in both English and Azerbaijani. Athletes who take part in a Medal Ceremony must adhere to the Baku 2015 European Games rules and regulations that pertain to dress and conduct. All athletes will be required to wear their official NOC tracksuit throughout their Medal Ceremony. It is the responsibility of each athlete/coach to ensure that the athlete has their full tracksuit with them and that it is ready to wear at the venue in time for the start of the Medal Ceremony. Failure to adhere to this rule may result in the delay or postponement of the Medal Ceremony.

Athlete chaperones will lead athletes to the podium for the Medal Ceremony, and will provide direction with regard to the procedures that the athletes will need to follow. Flags, signs, mobile phones, cameras, electronic devices, bottles, items of sport equipment, political statements and accreditations will not be allowed on the podium. If any

athlete is in possession of any of these items, they must be passed to the Medal Ceremonies Manager for the duration of the Ceremony. Similarly, if any items are thrown to an athlete while they are on the field of play and/or the podium, the athlete must pass them to their athlete escort for them to hold during the Medal Ceremony. Failure to comply with these rules may result in disqualification. During the Medal Ceremony, BEGOC plans to also present winning athletes with a bouquet of flowers and a gift, as well as an individual medal presentation box.

After the Medal Ceremony has finished, athletes will be asked to move to a second location in order to provide the media with additional photography opportunities. This will take no more than one minute. After all the photographs have been taken, athlete escorts will lead the athletes to the Broadcast Mixed Zone. If any athlete has been notified for doping control, he/she will be escorted through the Broadcast Mixed Zone by a Doping Control Officer and will then be chaperoned to the Doping Control Station.

Medals will be awarded in each event of the competition as follows:

- 1st place: A gold gilt medal,
- 2nd place: A silver gilt medal
- 3rd place: A bronze gilt medal

For relay events, only athletes who competed in the final will be awarded a medal during the Medal Ceremony. Medals will be available for athletes who competed in the heats and not the finals session. At the end of the day in which the event took place, an NOC representative should report to the Medal Ceremony Office to complete a form. Upon signature, the additional medals will be provided to the NOC representative by the Medal Ceremony Venue Manager. It is the responsibility of the NOC to ensure the appropriate athletes receive the medals.

The Games and Baku

The Games

Accreditation

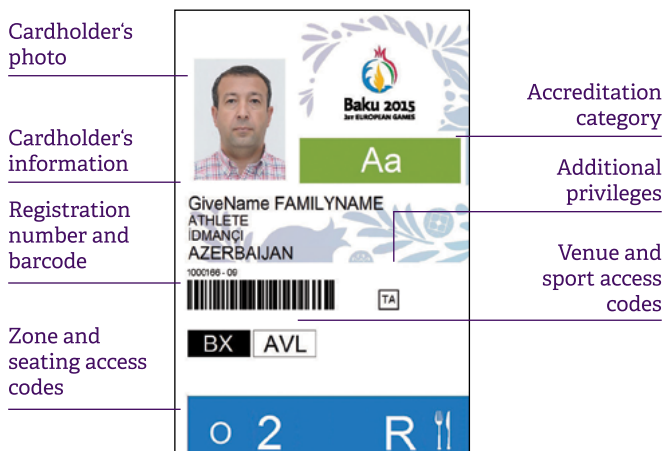

BEGOC issues a European Games Identity and Accreditation Card (EGIAC) to each individual participating in the Baku 2015 European Games. The EGIAC establishes the identity of its user and allows access to European Games venues.

Before validation, the EGIAC is referred to as a Pre-Valid Card. To validate the Pre-Valid Cards participants must present an acceptable form of identification document at an accreditation centre. All participants in the European Games must provide a valid and original Identification Document as follows:

- Azerbaijani nationals: National Identification Document
- Nationalities of other countries and stateless citizens: Passport/official travel document

The Pre-Valid Card can be used as a travel and multiple entry and exit document valid from 13 April 2015 until 28 July 2015. Failure to be in possession of the Pre-Valid Cards may prohibit travel and entry to Azerbaijan.

Only once the Pre-Valid Card is validated does it become an official EGIAC.

Accreditation facilities

During the European Games, participants holding a Pre-Valid Card will be able to validate them at locations including:

- The validation counters located at the Heydar Aliyev International Airport (only validation location for technical officials);
- The Welcome Centre at the Athletes Village, which will be the primary accreditation centre for Village residents based in Baku; and
- The Canoe Sprint Village Accreditation Centre, which will be the primary accreditation centre for Canoe Sprint participants based in Mingachevir

Baku, and the history of the city

Baku is the capital and the largest city of Azerbaijan, as well as the largest city on the Caspian Sea and of the Caucasus region. It is located on the southern shore of the Absheron Peninsula, which projects into the Caspian Sea. At 28 metres below sea level Baku is the lowest lying national capital in the world and is home to approximately 2,5 million people. It is twinned with the European cities of Naples in Italy, Sarajevo in Bosnia and Izmir in Turkey.

The city consists of two principal parts: the downtown area and the old Inner City (Icherisheher). Baku is divided into 11 administrative districts (raions) and 48 townships. Among these are townships on islands in the Bay of Baku and the town of Oil Rocks built on stilts in the Caspian Sea, 60 km (37 miles) away from Baku. The Inner City of Baku along with the Palace of the Shirvanshahs and Maiden Tower were inscribed as

UNESCO World Heritage Sites in 2000. According to the Lonely Planet's ranking, Baku is also among the world's top ten destinations for urban nightlife.

Baku is one of the few cities in the world to offer visitors the opportunity of enjoying all the attractions that a modern European city has to offer while also embracing traditions and culture that date back to medieval times.

Located at the crossroads of Europe and Asia, the city is one of the world's best-kept secrets with world class sporting and cultural events and modern and ancient attractions presenting no end of things to discover and enjoy.

The port city lies on the eastern side of Azerbaijan and is completely surrounded by the Caspian Sea - the world's largest lake.

Perhaps one of the most unique features of Baku is that it is the first European city in which the sun rises. The picturesque city is built on a high hill and forms an amphitheatre that slopes down to Baku Bay. It is often compared to San Francisco, or Naples in Italy with whom it is twinned along with the other European cities of Sarajevo in Bosnia and Izmir in Turkey.

Baku's reputation as the 'City of Contrasts' is well earned with the city having perfectly combined the beauty and intrigue of its ancient past with its ambition to establish itself as a modern European city featuring award winning architecture, business centre and skyscrapers.

The heart of Baku is the Old City which became a UNESCO heritage site in 2000. It has existed for thousands of years and is firmly established as the pearl of Azerbaijani architecture and culture. Within its walls visitors can travel back in time as they explore a maze of narrow cobbled streets, ancient caravanserais and the courtyards surrounding the 12th century Maiden Tower and the ornate Palace of the Shirvanshahs.

Azerbaijan's President Ilham Aliyev and First Lady and UNESCO and ISESCO Goodwill Ambassador Mehriban Aliyeva have been actively involved in the work which has taken place in recent years to restore

and preserve this ancient heart of Azerbaijan.

The modern face of Baku is equally impressive. New developments have redefined the hills that line the picturesque Bay of Baku and even the coastline itself.

The iconic Heydar Aliyev Centre, designed by Zaha Hadid, provides a stunning setting for operas, symphonies, museum exhibits and modern art collections. Visits to The National Art Museum and Museum of Modern Art are also recommended.

Theatre is also a much-loved form of entertainment with Baku presenting a diverse range of theatre houses including a Mime Theatre and Puppet Theatre.

Baku's Flame Towers are the tallest skyscrapers in the city at 190 metres. The spectacular buildings which comprise apartments, a hotel and office blocks takes on another dimension each evening when thousands of LED lights illuminate the façade of the three towers to display the movement of a fire visible from the farthest points of the city.

Another must see venue is the Heydar Aliyev Arena which has hosted numerous sports events. It will be home to Judo, Sambo and Wrestling during the Baku 2015 European Games. Azerbaijan's pop duo Ell & Nikki were crowned winners of the Eurovision Song Contest in 2011 with their song 'Running Scared'. Their success earned Azerbaijan the right to host the 2012 edition of the competition for the first time.

The event was staged at the magnificent Baku Crystal Hall, a 25,000 seat arena located near the National Flag Centre on a dramatic peninsula jutting out into the Bay of Baku.

Discover Baku

Shopping

Azerbaijan has been a popular choice for expatriates ever since large oil reserves were found in the country. The influx of westerners resulted in the availability of branded products, which has increased in dramatic proportions since independence. Prices of these products are not very expensive, but one needs to be careful against fake brands. For any foreign tourist, the country's arts and crafts section holds the maximum attraction.

In various cities of Azerbaijan, there are streets that sell handcrafts, silk, and other artefacts local to the city.

Café culture, music and dining

Baku's café culture and social scene revolves around Baku's city Boulevard which features a six-kilometre promenade of shops, restaurants, cafes, clubs and family friendly fairground rides. Here visitors can enjoy al fresco dining and cocktails in bar terraces overlooking the Caspian Sea.

Live music is a feature of the energetic and eclectic nightlife in the city. Visitors can experience home-grown rock bands, the ever popular karaoke bars, Baku's unique jazz or some traditional mugam folk music. Bars, clubs and discos are open till late in the morning, especially during weekends.

The city's excellent restaurants serve up an eclectic mix of international culinary styles ranging from five-star creations that will satisfy the most demanding gourmet to corner kebab shops for a taste of local flavour on the go.

Nine of the world's climate zones can be found in Azerbaijan. This provides lush fertile land which produces a great quantity of fresh herbs and vegetables which contribute to the high quality of the local food. Food forms a significant part of the culture in Azerbaijan and is deeply rooted in the history, tradition and values of the nation.

Azerbaijani Cuisine

The city's excellent restaurants serve up an eclectic mix of international culinary styles ranging from five-star creations that will satisfy the most demanding gourmet to corner kebab shops for a taste of local flavour on the go.

Aside from the wonderful variety of soups and kebabs, Azerbaijan's most distinctive dish is the plov, a saffron rice-based dish which is traditionally accompanied by a variety of herbs and fresh vegetables.

Theatre

The kind of life that Azerbaijani people lead, the festivals they celebrate, their traditions and outlook towards life has a great impact on the theatre of Azerbaijan. Traditional ceremonies, their dressing styles,

dialogs, all form an integral part of the Azerbaijani theatrical experience. Dramatic clothes, masks, traditional dances, chorus songs and dance dramatise a typical Azerbaijani play.

The development of theatre has come a long way since Soviet rule to independent Azerbaijan. Theatre during Soviet rule represented the struggle of Azerbaijan's people for their independence along with contemporary, cultural and traditional formations. Theatre after Azerbaijan achieved independence has changed much, with present situations and topics affecting the content of the play. Theatre has started touring in foreign countries preserving and spreading their rich culture and tradition as well as the life of the Azerbaijani people.

Nightlife

Although it is not known for its nightlife, visitors to Baku can enjoy a host of lively bars and clubs to have some fun at night. Food and drinks are reasonably priced. Most nightclubs have sprung up in the last decade or so after the influx of oil industry expatriates. Bars, clubs and discos are open till late in the morning, especially during weekends.

Museums and Exhibitions

Azerbaijan has a long and rich history of culture, tradition and struggle for independence. A variety of interesting exhibitions can be found throughout the city.

Azerbaijan, the land of fire

Azerbaijan is often referred to as the Land of Fire, since ancient religions based on fire-worship originated here. One of the first names for Azerbaijan was Aturpatakan, translating to "a place where sacred fire is preserved".

Land of Fire originates from the sight of gas igniting on escaping from the ground, creating the effect of a burning hillside, at several sites in the Absheron peninsula, in the South Caucasus.

The South Caucasus is considered one of the first regions where fire was used. Nowadays there are 12 such fires throughout the Republic.

The most famous is the Yanar Dag, translated as the 'Burning Mountain', 27 km north of Baku city centre. It continuously vents flames of fire

all year round, a process that has been going for around 1,000 years. Natural gas vents on the sides of the mountain ensure that the flame remains lit in wet weather.

Useful information

Banks and credit cards

There are a multitude of ATM machines around the city in Baku, most of which accept international debit and credit cards. Depending on your account-holding bank, there may be limits on the amount of currency you are able to withdraw in one day. The withdrawal limit from most machines in the city is 500 New Manat (AZN) in one transaction.

Larger bank branches are open Mondays to Saturdays, but closed on Sundays. Smaller branches are closed on Saturdays and Sundays. International credit and debit cards are accepted in most restaurants and larger shops.

Currency

The currency in Azerbaijan is the Azerbaijan New Manat (AZN).

One hundred qepik equals one Manat, and Manat notes come in 1, 5, 10, 20, 50 and 100 denominations.

It is not possible to exchange currency into Manat in countries other than Azerbaijan so visitors will need to use the foreign exchange desk at the arrivals hall at the airport or withdraw from ATMs around the city.

Electricity

Standard electrical power in Azerbaijan is 220v. Electrical equipment and appliances use the standard European 220-240v two-pin plug.

Gratuities and tipping

Tipping is not expected across Azerbaijan but is commonplace in Baku. Occasionally a service charge is included on the bill, particularly in more established hotels and restaurants. Like any other place in the world, tipping for above-average service will be appreciated.

Language

The official language is Azerbaijani but many people also speak Russian, Turkish and/or English. The official language of the European Games will be English.

Opening hours

Office hours are officially 09:00 to 17:00 Mondays through Fridays. Banking hours are officially 09:30 to 17:30, Mondays through Fridays.

Shops generally open around 09:30 or 10:00 and close around 19:00. Shops are open seven days a week. Bars and restaurants are open until at least 23:00.

Smoking

Smoking is permitted in public areas across Azerbaijan, including most restaurants and bars. Smoking will not be permitted in any Baku 2015 European Games venue except for designated smoking areas.

Taxes (VAT)

VAT in Azerbaijan is similar to that in most European VAT systems, with tax levied on the supply of most goods and services and on the import of goods. VAT payers are entitled to recover the amount of VAT paid on purchases (input VAT) that exceeds the VAT received from their taxable supplies (output VAT).

The country code for Azerbaijan is 994 and the city code for Baku is 012. The city code for Mingachevir is 2427. The international exit code for calling out of Azerbaijan is 00 and must be dialled before the relevant country code and telephone number.

Azerbaijani mobile phone numbers have 10 digits and most mobile numbers start with 050 or 051. All 10 digits must be dialled for calls within Azerbaijan. For example: 050-123-XXXX.

When calling from outside Azerbaijan, the country code then number minus the zero should be dialled. For example: +994-50-123-XXXX.
